NEW ULM PUBLIC UTILITIES REBATE & CONSERVATION CALENDAR

VINTAGE NEW ULM

2020

Public Meetings & Events

Money & Energy Saving Programs & Tips!

The Rebate & Conservation Calendar has been developed for the purpose of sharing rebate programs and conservation information with New Ulm Public Utilities Commission (NUPUC) customers. Minnesota State Statute 216B.241 requires NUPUC to spend 1.5% of its gross operational revenue to maintain a Conservation Improvement Plan to promote energy efficiency. Conservation Improvement Programs may include energy conservation measures and target consumer behavior. Conservation Improvement Plan funds are used to cover calendar development and material costs. The calendar serves to promote NUPUC rebate programs, distribute conservation tips, and list City and local events. We hope you enjoy this calendar and find it informative.

CALL FOR UNIQUELY NEW ULM PHOTOS! 2021

I will find
a photo here
open to
suggestions

Submit photos of New Ulm’s unique offerings in art, scenery, hidden alleyways, unknown areas, or anything that makes New Ulm special for the 2021 Uniquely New Ulm calendar from New Ulm Public Utilities! Photos need to have a community connection and they must not come from a copyrighted source. If chosen, your photo or photos will appear in the calendar, receive photo credit and bragging rights. Public Utilities also reserves the right to use submitted photos in other educational or marketing materials. We will use as many photos as space allows.

Submit digital photos to comments@newulmmn.gov or deliver/mail printed photos to the Public Utilities office at the address listed on the back of this calendar. DEADLINE: SEPTEMBER 30, 2020. Questions, call 507-233-2110, ext. 401.

Include your name, address, and telephone number along with photo identification, date of activity or event, and location.

Thank
you!

New Ulm Public Utilities would like to thank everyone who submitted photographs for this year’s Rebate & Conservation Calendar. The photos provide a glimpse of both current and past events in New Ulm. It is exciting to see what local residents have been able to capture, and we encourage you to submit photos of local events, nature, people, and anything else you may find photo-worthy. Extra calendars may be picked up at City Hall, the Chamber of Commerce, New Ulm Public Utilities and the New Ulm Public Library.

Volunteer and Serve Your Community!

Citizens of New Ulm volunteer their time to serve on various boards and commissions. The volunteers are appointed by the Mayor and approved by the City Council at the annual meeting in January of each year.

If you are interested in serving on one of our boards or commissions, please download and complete the application found on the website below and submit to:

REMEMBER!

Go with the low flow!

By replacing old, inefficient toilets with low flow WaterSense-labeled models, the average family can reduce water used for toilets by 20 to 60 percent—that's nearly 13,000 gallons of water savings for your home every year! They could also **save more than \$140 per year in water costs, and \$2,900** over the lifetime of the toilets.

Replacing showerheads with WaterSense- labeled models can **save 4 gallons of water** every time you take a shower.

Replacing old, inefficient faucets and aerators with WaterSense-labeled models can **save 700 gallons of water per year**.

Heating water is typically the second largest use of energy in a home. Low flow products save money on your gas and electric bills as well!

REMEMBER!
Keep on the
Sunny Side

Considering solar panels for your home or business? You first must understand your electrical usage and local codes and requirements.

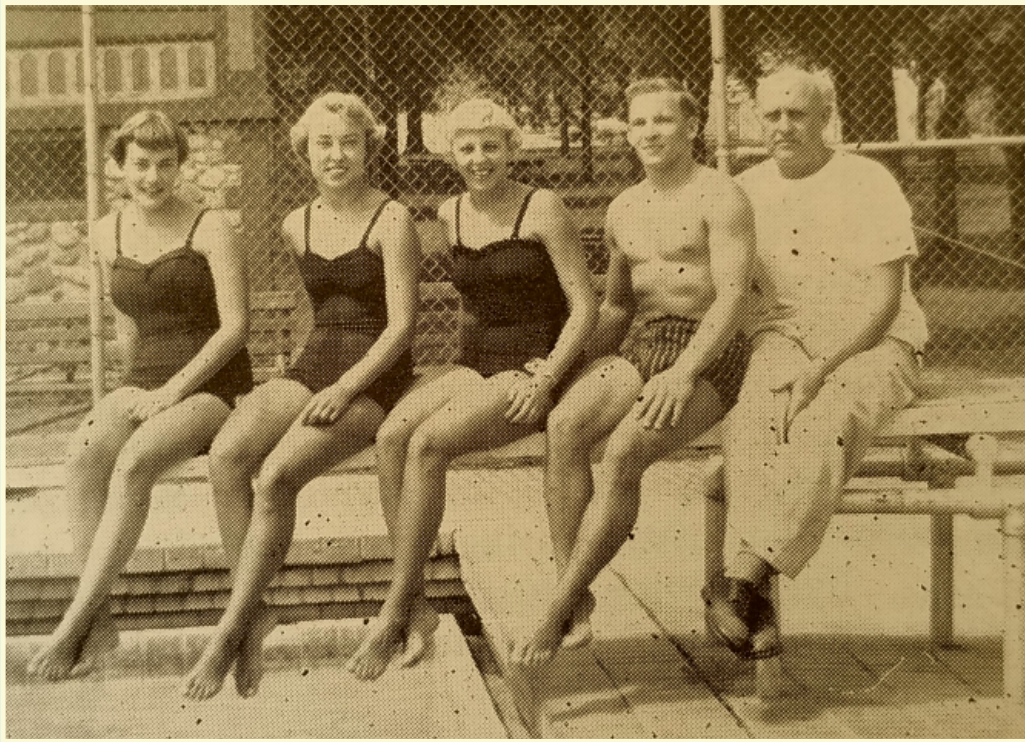

To determine electrical consumption: Multiply the wattage of each appliance by the number for hours it’s used each day. Find power-use data on a sticker, metal plate, or cord attached to appliance.

Energy audits are a great starting point before committing to solar panels. An audit will identify areas where energy is being lost.

Visit New Ulm Public Utilities at 310 1st North Street, call 233-2110 Ext. 401 or visit nupuc.com for details on the interconnection process.

REMEMBER!

WHAT IS ENERGY STAR?

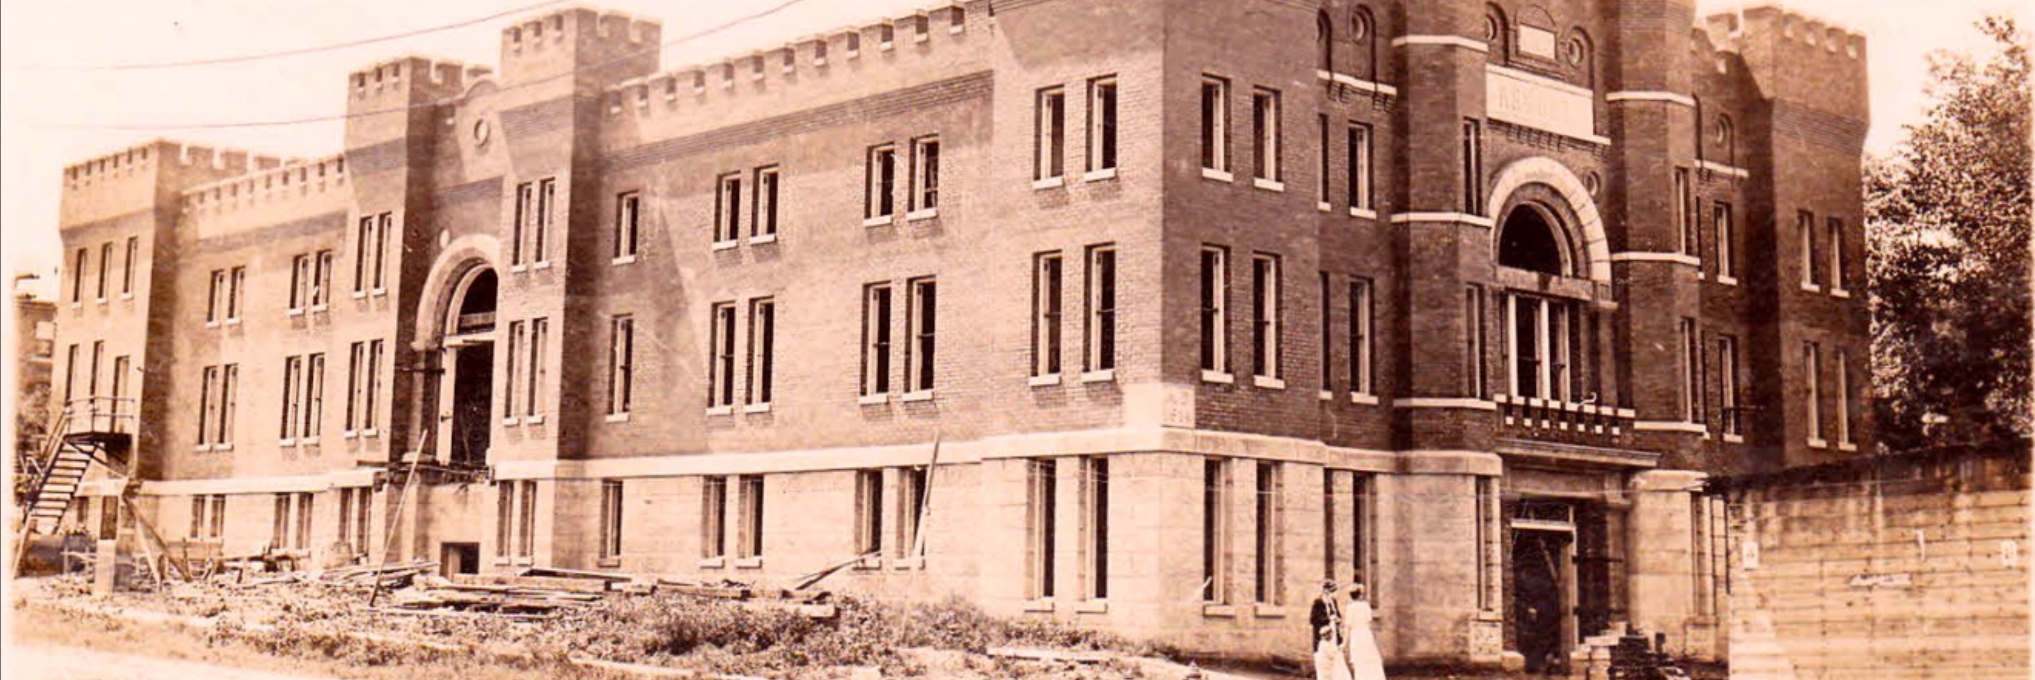

ENERGY STAR is the trusted, government-backed symbol for energy efficiency helping us all save money and protect the environment through energy-efficient products and practices.

The ENERGY STAR label was established to reduce greenhouse gas emissions and other pollutants caused by the inefficient use of energy, and make it easy for consumers to identify and purchase energy-efficient products that offer savings on energy bills without sacrificing performance, features, and comfort.

AUGUST

REMEMBER!

Great Benefits!

An **ENERGY AUDIT** is an analysis of your home, business or other facility, indicating how and where that facility can reduce energy consumption and save energy costs. Its insight to energy efficiency and conservation can lead to significant savings on your utility bill.

Thermal infrared cameras to find energy leaks, and blower door tests to measure the airtightness of a structure. The next step is often to meet with building managers or home owners to determine how to improve energy efficiency and reduce costs.

REMEMBER!

It Pays to Be Efficient

You'll save **more money** than you think when you purchase a new, energy efficient furnace! According to the Department of Energy, a high efficiency furnace can dramatically **reduce utility bills by 50%**! If your existing furnace operated at 70% AFUE and you replace it with a 95%

efficiency model, this represents an increase of over **26% in energy efficiency**. **Plus New Ulm Public Utilities customers can receive up to a \$200 rebate on a new qualifying boiler or furnace.**

Visit New Ulm Public Utilities at 310 1st North Street, call 233-2110 Ext. 401 or visit nupuc.com for details and forms.

TAKE A TIP!

Adjust the thermostat only to the desired temperature. Your home won't heat faster by cranking it up.
