REMINDER!

Rebate amounts dependent on minimum qualifications. Rebates are only given when funds are available and during the calendar year in which items were purchased, installed, or when an action occurred, to NUPU customers only. NUPU's Conservation Improvement Program, expenses, and energy savings associated with activities need to fall within the same year, and reported for the year in which they occur. If funds run out within that year, no rebates will be available. Rebate submissions are accepted until January 31 of the following year for the prior year purchases.
